

# Arjun Sarode — Web Developer

224-475-6148 — sarodearjun57@gmail.com — arjunsarode.com — github.com/asarode — arjunsarode on Skype

## EXPERIENCE

### **Web Developer, AltSchool — Feb 2016 - Present**

*Ember*

Working as a full-time spring intern. Building web apps to help students and teachers in personalized classrooms.

- TDD with Ember

### **Web Developer, InTurn — June 2015 - December 2015**

*Redux • React • AngularJS • NodeJS*

Worked as a full-time summer intern at a tech startup. Restructured the frontend architecture with Redux and React.

Continued to work remotely part-time during the school year.

- Built a Node microservice to manage sending out transactional emails with Sendgrid
- Used Redux, ImmutableJS, and React to build out a web app
- Added features to the admin Angular app including CRUD operations, batch uploading, and user registration

### **Co-founder & Web Designer, Anvil — May 2014 - July 2014**

*UX • HTML/CSS*

With a team of four developers, created a platform to easily host git branches of a web app with one click.

- Designed and created landing page and views
- Conducted user experience interviews to iterate the design

## PROJECTS

### **Bamboozle ([github.com/3StackGames/bamboozle-fe](https://github.com/3StackGames/bamboozle-fe)) — December 2015**

*React • Redux • WebSockets*

Online local-multiplayer trivia game written with React and Redux. Frontend was built by me and a friend.

- Handles multiplayer networking, reconnecting, and game state communication via WebSockets with the backend

### **Seen It ([asarode.github.io/seen-it](https://asarode.github.io/seen-it)) — Sep 2015**

*Chrome extension*

Chrome extension that auto-skips images you've already seen on Imgur

- Manage open source project with contributions from other Imgur users

### **Digital Compass ([github.com/3StackGames/digital-compass-client](https://github.com/3StackGames/digital-compass-client)) — Oct 2015**

*Library • WebSockets*

Worked with friends to build a JavaScript library for creating WebSocket driven party games

- Designed and implemented a developer-friendly API

### **Max-Alpha ([github.com/3StackGames/max-alpha-fe](https://github.com/3StackGames/max-alpha-fe)) — December 2015**

*React • Redux • WebSockets*

Online card game playable on a web browser.

## EDUCATION

BS, Computer Science from **University of Illinois at Urbana-Champaign** anticipated May 2018

## SKILLS

JavaScript, ES6, React, Redux, ImmutableJS, Node, Mocha, Chai, Angular, Express, Gulp, WebPack, RxJS, MongoDB, Neo4j, RESTful APIs, WebSockets, HTML, CSS, Stylus, Git, Unity, Elixir, Phoenix, Elm

I <3  
component based UIs,  
containing side effects,  
and immutability
